PT BUANA INSKONSI JAYA
 (부아나 인스콘시 자야 주식회사)

Greeting from PT. BIJ

PT. Buana Inskonsi Jaya is a reputable Indonesian engineering and construction company specializing in the delivery of comprehensive solutions for **Plant projects(Power/Chemical/Waste)**. Our core competencies lie in **Mechanical / Electrical / Control & Instrument**

In addition to our engineering and construction services, we offer specialized expertise in **Commissioning and Operation & Maintenance (O&M)**, ensuring long-term operational efficiency and optimal performance of facilities entrusted to us.

As the global industry embraces AI Digital transformation, we are actively expanding into the **Smart Automation sector, including Smart Factories, Smart Warehouses, and integrated Industrial Automation solutions**. Our strategic growth in this domain reflects our commitment to innovation and future-ready infrastructure.

At **PT. Buana Inskonsi Jaya**, we place the highest importance on transparent communication, mutual trust, and strict adherence to quality and safety standards. Our multidisciplinary team of seasoned engineers brings together technical excellence and field-proven experience to deliver solutions tailored to our clients' precise needs.

We are driven by a vision of shared growth and continuous advancement, aspiring to build a better tomorrow through reliable partnerships and sustainable project execution. In every engagement, we commit to delivering value, satisfaction, and trust hallmarks of our company's identity.

We sincerely thank you for your continued confidence and look forward to shaping the future side by side.
